

If you've been thinking about renovating, there's never been a better time, particularly if energy efficiency is one of your goals.

If you're already considering window replacement, why not take care of it now during the months where you stand to save the most money on energy bills?

The biggest advantage is you'll get an immediate return on your investment in the way of reduced energy costs. [Energy efficient windows](#) mean lower thermostats and a warmer home.

You should always consider the cost of waiting when making a decision like this.

We totally understand the concerns and questions that homeowners have. Where there is uncertainty, the common tendency is to wait.

However, we believe that waiting may actually end up costing more money in the long run.

With the holiday season set to start, this can seem like the worst possible time of the year to undertake a renovation project. However, you might be surprised to learn that some see the end of the calendar year as the best time to undertake a home improvement project.

If there was ever a time to strike a [deal](#) on home improvement and home renovation, this is it.

NOW

- **Canada EcoEnergy Rebate Program -** Replace your windows or doors with ENERGY STAR qualified models. Grant amount **\$40** (per rough opening)
- **WELDA Winter Special Offer -** Get 3 Months Free Heating This Winter! We'll pay **\$460** of your winter heating bill.
- **Beat the price increase -** With higher prices coming in you can save **5%**
- **Lower your bill by reducing heating costs -** High quality energy efficient windows save money each and every month. It is like your lower energy bills will write you a check each month.
- **Use the bank's money, not yours -**
 - No Payment, No Interest for 3 Months (from \$1500.00 O.A.C.)
 - No Payment, No Interest for 6 Months (from \$2500.00 O.A.C.)
 - No Payment, No Interest for 12 Months (from \$5000.00 O.A.C.)
 - 30 Equal Payments (from \$1500.00 O.A.C.)

Even if you have the money in the bank it makes more sense to get the job financed. You can **save your money, collect interest on it** and at the end of 3-12 months pay off the whole loan amount. That means you renovated your home without using your own money for 3-12 months. This allows you more financial freedom.

LATER

- Program ends March 31, 2012
- Offer ends March 09, 2012
- Price Increase effective February 01, 2012
- If you still have old drafty windows, the money you're losing every month would pay for new energy efficient windows.
Heating can account for more than half your energy bill, and up to a third of the heat from your home can escape through windows.
- Offer ends January 31, 2012
- Offer ends January 11, 2012
- Offer ends January 11, 2012
- Offer ends January 11, 2012

You can't afford NOT to change those drafty windows / doors with energy costs on the rise. Why wait and waste money?!
